- Page 24 BARTON ON HUMBER, Cemetery Chapel.** This bell was sold in 1949 to Taylors for scrap.
- Page 63 CORBY GLEN, St John Evan :** The third and fourth bells from St Albans Abbey are being purchased as the treble of 6 and to replace the existing treble. It is hoped this work will be carried out during 2011. Source : Information from Keltek Trust 1. 8. 2010
- Page 66 CRANWELL, Royal Air Force College Chapel.** The chapel has a single bell provided by Taylor's in 1967. Diameter 23.125" weight 2 cwt 10 lbs Note F. It's note is identical to the second bell of the chime.
- Page 76 DUNSTON, St Peter.** The third bell (then treble) before recasting by James Harrison III in 1819 was inscribed : CELORUM CHRISTE PLACEAT TIBI REX SONUS ISTE [Trans : O Christ the King of Heaven may this sound be pleasing to Thee]. After recasting by Harrison this bell was inscribed : JAMES HARRISON FOUNDER BARTON. 1819 [Ornament]. The current bell makes no reference to its Harrison predecessor.
- Page 112 HALTHAM-ON-BAIN, St Benedict –** Add to the inscription on the second bell the date 1662.
- Page 128 HUMBER ESTUARY -** Two hexagonal forts were built in 1915 as a defence for the River Humber estuary. The largest, Bull Sands Fort, stands on a sandbank near Spurn Head. A bell was supplied by the Loughborough Bellfoundry details below :
- JOHN TAYLOR & CO * FOUNDERS * LOUGHBOROUGH * 1949 *
Diameter 24" weight 2 cwt 3 qrs 11 lbs
- The bell was supplied via Gents (the Leicester clockmakers) and may have been used to sound the hours and also as a signal to shipping during inclement weather.
- In 1997 the Streetwise Charitable Trust purchased the fort which is in the process of restoration.

- Page 241 TANVATS** is a small hamlet 5 miles east of Metheringham. In 1857 a school licensed for church services was opened. In 1948 it was closed and demolished.
- A steel bell has recently come to light and appears to have come from the above school/chapel. It was cast by Naylor Vickers *circa* 1863 and is inscribed on the waist 3172 with a diameter of 12". A collector of bellringing curiosities now owns it.
- Page 243 THEDDLETHORPE ALL SAINTS.** The fourth bell has been repaired by welding and the timber frame repaired. The bells have been rehung 'dead' for chiming by John Taylor & Co. The third bell is not cracked.
Source : Information communicated by GAD 5, 10, 2010
- Page 249 THURLBY, St Firmin.** In 2010 these bells were rehung in a new cast-iron frame by John Taylor & Co. A new headstock was provided for the second bell and new ball bearings for all six bells. The bell wheels were refurbished and new roller boxes, stays and sliders were provided.
- Page 262 WEST BARKWITH, All Saints** : The largest of these bells has now been hung at Eakring, St Andrew, Nottinghamshire, by John Taylor & Co as the treble of four.
- Page 266 WICKENBY, St Peter and Paul** : Although the frame is by Rudd, the fittings are all by Taylors of Loughborough.
